U.S. Government Required Disclaimer - Commodity Futures Trading Commission states: Futures and Options trading has large potential rewards, but also large potential risk. You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell futures, stocks or options on the same. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed in this document. The past performance of any trading system or methodology is not necessarily indicative of future results.

CFTC RULE 4.41 - HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN.

Why do you need one?

How do you get one?
Crushing the Competition

What do many “gurus” say about trading?

www.kjtradingsystems.com
Crushing the Competition

● “Guru” speak:
  
  - “My system is unbeatable”
  - “I cracked the code”
  - “So simple – only 15 minutes a day!”

www.kjtradingsystems.com
Crushing the Competition

- They want you to believe their “special” trading system is the only way to make profits

- What if they are wrong???
Crushing the Competition

- The simple fact is that you cannot rely on only one trading system, strategy, or method!

- Why Not ?!?!?!?
Relying on One Strategy

- What if This is Your System?
Relying on One Strategy

- What if the strategy backtests good, but falls apart in the real world?
Opportunities Come and Go

- What if you traded only the Euro?
Opportunities Come and Go

- Or Crude, or mini S&P?
Relying on One Strategy

- If you want to rely on one strategy...
  - You better hope your strategy is great
  - You better hope the system developer did not cheat
  - You better hope market does not change
  - You better hope no one knows about it!

www.kjtradingsystems.com
Relying on One Strategy

- That’s a little too much hoping for me!
My Solution

- I trade numerous strategies

www.kjtradingsystems.com
My Solution

- If 1 underperforms, I just replace it

www.kjtradingsystems.com
My Solution

- No more worrying or panic – “did I pick the right strategy?”

- I’ve created a Strategy Factory to develop trading systems

www.kjtradingsystems.com
My Solution

- What are keys to the Strategy Factory approach?
My Solution

- What are keys to the Strategy Factory approach?
  - Multiple markets
  - Multiple strategies
  - Uncorrelated strategies
  - Utilize proper development process

www.kjtradingsystems.com
My Solution

- What are keys to this approach?
  - Multiple markets

  - Take advantage of whatever market gives you the most opportunity

  - You can never predict which market will “pop” next, so be ready to trade them all!

www.kjtradingsystems.com
My Solution

- What are keys to this approach?
  - Multiple strategies

  - If you have one strategy, and the market “figures it out,” you are in trouble!
  - Try some trend following, some counter trend, some mean reversion
  - Trade futures, spreads, options, etc.

www.kjtradingsystems.com
No Strategy Lasts Forever

- “Buy and Hold” Died in 2009

Buy here, Hold forever

most "buy and holders" could not handle drawdowns

www.kjtradingsystems.com
No Strategy Lasts Forever

- Thousand of traders looking for strategies every day
  - Even if you find one, chances are someone else will too
  - When more people trade your “edge,” it eventually disappears

www.kjtradingsystems.com
My Solution

- What are keys to the Strategy Factory approach?
  - Uncorrelated strategies (diversification)

- Diversification is the big secret almost no ones talks about!

- Closest thing I have found to a trading “Holy Grail”

www.kjtradingsystems.com
What is trading diversification?

1 Strategy

14 Strategies

Walkforward Test Results

Return/DD for portfolio = 15.45
(compare to 2-3 ratio for 1 strategy)

www.kjtradingsystems.com
What is trading diversification?

- Trading different:
  - Strategies
  - Markets
  - Timeframes

- Key: each strategy should not be correlated to the others
Diversification – In Action

- **EXAMPLE:** MULTIPLE FUTURES TRADING STRATEGIES

- Gold & Euro – uncorrelated

- Stats Traded Alone

Diversification – In Action

- **EXAMPLE**: MULTIPLE FUTURES TRADING STRATEGIES

- Net Profit doubles

- Max Drawdown actually decreases

- Profit/Drawdown ratio more than doubles

- Equity Curve is Smoother (note how pink curve is smoother than either of the other curves alone)

● Where Can This Lead?

www.kjtradingsystems.com
My Solution

- What are keys to the Strategy Factory approach?
  - Proper Development Process

www.kjtradingsystems.com
My Solution

- Strategy Factory

www.kjtradingsystems.com
My Solution

- **Build Your Own Strategy Factory**
  - Create a solid process to test and evaluate strategies
  - Ideas come in, get transformed to strategies, either exit the factory as scrap or as tradable systems

www.kjtradingsystems.com
The problem is…

Most people don’t know how to correctly develop a strategy!
My Solution

- This is my Development Process (feel free to use it!)

  Performance Goals and Objectives

  Trading Idea → Limited Feasibility Testing → Walkforward Testing And Optimization

  Monte Carlo Simulation → Incubation → Diversification, Position Sizing

  Full Size, Real Money Operation

  It takes approx 100-200 trading ideas to yield 1 tradable system

“Great seminar!, I walked away with a clear understanding of robust system development. With this information I can start creating, optimizing and testing systems right away. Conveyed realistic expectations. Wish I had known this information 8 years ago when first started trading systems.” - Keith O. California

*Kevin's Seminar was very thorough.* I'm much more optimistic about my ability to trade algorithmic strategies. I now have the concepts and tools to make algorithmic trading possible. - Jonathan M Indiana, USA

The strategy factory is a simple, yet powerful concept because it gives you a systematic way to build and evaluate trading strategies. If you have the desire to develop algorithmic strategies and are willing to practice the skills in the development process, then Kevin's book and webinar will give you a solid foundation for creating your own strategies. – Attendee, Sept 19
